EXPERIENCE

Full Stack Engineer

Gurugram

Infoogy Infotech

October 2024-Present

- Developed a fullstack application using Next.js, Tailwind CSS, Express.js, and TypeScript to enhance client interaction management and improve customer service.
- Collaborated with a team of developers to build REST API using Express.js. The API was successfully integrated into the company's production system.

Junior Software Engineer

Bengaluru

Revspire Technologies Pvt Ltd

April 2024 - October 2024

- Developed a FullStack application using React, Tailwind CSS, Express.js, and MySQL to enhance client interaction management and improve customer service.
- Collaborated with a team of developers to build REST API using Express.js. The API was successfully integrated into the company's production system.

Intern

Gurugram

Drinkcart

November 2023 - January 2024

- Developed a FullStack application using Vue.js, Tailwind CSS, Express.js, and MySQL to enhance client interaction management and improve customer service.
- Collaborated with a team of developers to build REST API using Express.js. The API was successfully integrated into the company's production system.

PROJECTS

Single one

- Tech Stack - Nextjs, Convex, Typescript, Zustand, Tailwind, Livekit, Zod, Postgres, AWS-S3
- The app is robust and efficient. Additional utilities like Zod for schema validation and React Hook Form simplify form handling

ICO Marketplace

- Tech Stack - Nextjs, Solidity, Hardhat, Javascript
- Designed and implemented a decentralized Initial Coin Offering (ICO) marketplace, enabling secure token sales and efficient transaction processing on the Ethereum blockchain.

EDUCATION

Graphic Era University

Master of Computer Applications (MCA)

* Cumulative GPA : 7.30/10.0

Dehradun, Uttarakhand

October 2022 - 2024
